Profile

Step into my world and discover the boundless creativity of Melvin William, a 29-year-old virtuoso in the realm of UX/UI design. With every stroke of my digital brush, I sculpt immersive web and mobile experiences that captivate and inspire. Fueled by passion and driven by opportunity, I am on a mission to redefine the very fabric of digital interaction. Join me as I navigate the ever-changing currents of design innovation, leaving an indelible mark on the tapestry of tomorrow's technology. I can communicate in **English** and **French**.

Education

2014 - 2018

University of Michigan, Michigan, USA

Bachelor of Science in User Experience Design.

Four wonderful years in a supportive environment. Surrounded by peers and mentors helping me navigate my way into this career that was always my dream that changed into reality.

Work Experience

2019 - 2023

Cape town, South Africa Remote

Naspers Limited.

A UX/UI designer in a team is pivotal in creating intuitive digital experiences. They collaborate with stakeholders, conduct user research, and translate insights into wireframes and prototypes. Balancing user needs with business goals, they craft visually appealing interfaces that enhance usability. They play a crucial role in ensuring consistency across platforms and fostering a seamless collaboration between design, development, and other teams for successful project outcomes.
